FOR IMMEDIATE RELEASE

RCG expands project services support for the renewables sector

New senior hire, Sam Park, appointed as Director London, England

London, England – Monday, January 9, 2017 – The Renewables Consulting Group (RCG) today announced the appointment of senior industry professional Sam Park as Project Services Director. The new position has been created to accelerate growth in project services for clients across a range of renewable energy technologies.

Mr Park has over 25 years' experience in different parts of the renewables and power industries, most recently in offshore wind energy project management and deployment.

His new role will encompass all RCG's global project services activity, focusing on developing long-term client relationships as the firm assists with the safe delivery of renewable energy projects from the pre-construction phase, financing, through mobilisation and construction, to operations and performance improvement.

Lee Clarke, Chief Operating Officer at RCG commented on the appointment:

"Sam brings a wealth of experience to this role, having a track record of delivering complex renewable energy and power projects. His relevant knowledge and expertise will be invaluable to all areas of RCG's project portfolio, across multiple territories. RCG offers first-class advisory services for the implementation and operation of renewable energy technologies and Sam will help drive the growth of this area of the company as we meet customer demand to reduce risk and apply best practice to projects. We are delighted to welcome Sam to the RCG team."

Before joining RCG, Mr Park served as Head of Construction Project Management Group at Renewable Energy Systems (RES), leading the offshore wind group's construction project management and delivery team supplying offshore wind consultancy services. Prior to that he served as Offshore Project Manager with Vestas. Mr Park holds a Bachelor degree in Mechanical Engineering and a Masters in Renewable Energy Systems Technology.

-- ENDS --

About The Renewables Consulting Group

RCG is a specialized expert services firm supporting the global renewable energy sector. From strategy to implementation, the company serves businesses, governments, and non-profits around the world with technical and management consulting services for both mainstream and emerging renewable energy technologies. RCG works with the public sector, private equity and financial services firms, utilities and project developers, equipment manufacturers, and engineering and construction companies for on- and off-shore wind, solar, and emerging technologies including wave and tidal and energy-storage projects. RCG is headquartered in London, and has offices in New York and Amsterdam. For more information, visit our website at www.thinkrcg.com or connect with us on Twitter via @thinkrcg
