FOR IMMEDIATE RELEASE

RCG bolsters research services with recruitment of Seb Rae in London office

London, UK - Wednesday, January 18, 2017 - Today, The Renewables Consulting Group (RCG) announced the addition of Sebastian Rae to the firm's London office. Mr Rae is a commercially focussed and client-oriented analyst with a track record of delivering powerful, independent and robust insight to decision makers within the offshore oil, gas and renewable energy industries.

From 2013, before joining RCG, Mr Rae worked at the UK's leading renewable energy trade association RenewableUK, where he was Market Intelligence Manager and Business Development Manager.

He also played a key role in building a robust platform of knowledge in support of the £20m GROW: OFFSHORE WIND programme to help UK companies take advantage of the supply chain opportunities presented by offshore wind. Before joining RenewableUK, Mr Rae was an Energy Researcher and Analyst at the energy research firm Infield Systems, now a part of WoodMacenzie.

Mr Rae has extensive experience working with intelligent enterprise applications for business development, databasing, forecasting, marketing, and modelling. Mr Rae earned his BSc (Hons) in Geography, and his MSc in Carbon Management from The University of Edinburgh.

Lee Clarke, Chief Operating Officer at RCG commented on the appointment:

“We’re very pleased to welcome Seb Rae to the RCG team and London office. We have seen a very positive response, and growing demand for our research and management consulting services, including market analysis and forecasting, to custom research products and go-to-market assistance, particularly with emerging markets and technologies. Seb is a top-class analyst, and brings a lot of experience that will further enhance RCG’s products and services in this area.”

-- ENDS --

About The Renewables Consulting Group

RCG is a specialized expert services firm supporting the global renewable energy sector. From strategy to implementation, the company serves businesses, governments, and non-profits around the world with technical and management consulting services for both mainstream and emerging renewable energy technologies. RCG works with the public sector, private equity and financial services firms, utilities and project developers, equipment manufacturers, and engineering and construction companies for on- and off-shore wind, solar, and emerging technologies including wave and tidal and energy-storage projects. RCG is headquartered in London, and has offices in New York and Amsterdam. For more information, visit our website at www.thinkrcg.com or connect with us on Twitter via @thinkrcg
