

# REALISE

## Offshore Wind Development Workflow

7

RCG's seven essential necessities for offshore wind value realisation

Preparation is everything:  
Realizing offshore wind  
project value starts early!

### About RCG

The Renewables Consulting Group is a specialized expert services firm dedicated exclusively to the global renewable energy sector. From strategy to implementation, we serve businesses, governments, and non-profits around the world with technical, commercial, and advocacy services for both mainstream and emerging energy technologies. We work with the public-sector, private equity and financial services firms, utilities, independent power producers (IPPs), and contractors and manufacturers for land-based and offshore wind, solar, hydrokinetic and ocean energy, and energy-storage technologies.

RCG is headquartered in London in the United Kingdom, and has offices in New York in the United States.
