FOR IMMEDIATE RELEASE

High Voltage Festival - a unique RCG team event

London, England - Wednesday, 4th October 2017 - To celebrate the incredible growth of The Renewables Consulting Group (RCG), and to say thank you to our staff for their exemplary enthusiasm and commitment to working as a team, we created our own High Voltage open-air festival, with great music, barbeque classics and lots of dancing.

Commenting on the event, Sebastian Chivers, RCG's Chief Executive Officer explained:

"At the moment we are growing rapidly with many new clients and exciting new projects. We really appreciate our staff and we wanted to bring our global team together. Our High Voltage event gave everyone a chance to bond in a relaxed environment, as well providing us with an opportunity to celebrate recent successes."

Sebastian added:

"We simply would not be able to achieve these brilliant results without everyone working together."

We created a short video of the event, available on our new You Tube channel at:

https://youtu.be/KQHSC5W_xQ4

People, relationships, capabilities - that is what RCG is all about. We are passionate about making RCG a great place to work. If you want to find out more about the firm, visit our website at:

About The Renewables Consulting Group

RCG is a specialized expert services firm supporting the global renewable energy sector. From strategy to implementation, the company serves businesses, governments, and non-profits around the world with technical and management consulting services for both mainstream and emerging renewable energy technologies. RCG works with the public sector, private equity and financial services firms, utilities and project developers, equipment manufacturers, and engineering and construction companies for on- and off-shore wind, solar, and emerging technologies including wave and tidal and energy-storage projects. RCG is headquartered in London, and has offices in New York and Amsterdam. For more information, visit our website at www.thinkrcg.com or connect with us on Twitter via @thinkrcg
