EMBARGO: Not for Publication or Broadcast before 1 AM on 29th April 2021

Her Majesty The Queen honours RCG with prestigious award

London, England – 29th April 2021 - The Renewables Consulting Group (RCG) has been recognised by Her Majesty The Queen by winning a Queen's Award for Enterprise in the International Trade category for significant growth in overseas sales. RCG is one of 205 organisations nationally to be recognised with this prestigious Queen's Award.

Now in its 55th year, the Queen's Awards for Enterprise are the most prestigious business awards in the country. The awards celebrate the success of exciting and innovative businesses which are leading the way with pioneering products or services, delivering impressive social mobility programmes or showing their commitment to excellent sustainable development practices.

Employing a staff of 60 consultants across nine offices, RCG provides top-tier market intelligence, management consulting and technical advisory services across wind, solar and energy storage technologies, serving the organizations leading the transition to a low-carbon economy.

As was RCG's mission upon its founding, the company's reach is global. The firm is organised into three regional business units covering Europe, Middle East & Africa, the Americas and Asia-Pacific. With a deep understanding of businesses and industries they serve, RCG works with the world's leading corporations, financial institutions, governments and public sector organisations.

Commenting on the award, Sebastian Chivers, RCG's CEO, said:

"We are absolutely delighted to win this prestigious award for international trade. RCG was established in 2015 with a clear mission of building the most respected renewable energy advisory firm, on a global scale. Receiving this Royal recognition is a huge honour, and the ultimate endorsement of our position as a trusted advisor to our clients."

"From New York to London to Tokyo, our outstanding team of engineers, economists and scientists is playing a pivotal role in the transition to a net zero economy. This award belongs to every employee who has been part of our journey to date. We look forward to continuing our global expansion, proudly as a Queen's Award recipient." – Sebastian Chivers, CEO

RCG's expertise covers the full value chain, from strategy and development, through transactions and financing to engineering construction, and operations.
